FAQs

Does Elm provide the devices, like cameras... etc.?

- Yes, Elm has qualified vendors who can provide the devices.

Is it possible to request for making some amendments on the gate?

- No, but if so, such requests will be revised by business development team.

What are the work forms to subscribe to the services?

- There are many work forms of Smart Gate services that will be provided by account managers or sales team.

If I have my own system, can the service be linked to it?

- Yes, the service is ready to link using API system.

How can I subscribe to the service?

- Fill in a subscription form and submit your request.

What are the vehicle's information that show on security check?

- Basic information, like car type, model and color.

Can I print the permit?

- A QR Code will be sent to the requester with all the permit details, so that the code will be checked when entering and exiting.

Does the service need specific devices?

- Yes, the service can be integrated with devices, like QR Code Scanning devices.

البوابة الذكية Smart Gate

Is there a detailed description about Smart Gate services?

- Yes, the relevant team in the facility will be well trained about the services, and a user guide will be provided.

Can the permit expiry date be determined?

- Yes.

How the vehicle can be verified?

- Installing a spotting camera on the gate to scan the vehicle's plate. Connecting it automatically with the gate's arm, so when vehicle is verified, the gate will directly open.
