

A New Horizon for Car Rental Sector

The car rental sector remains a vital and essential sector. So we introduced Tajeer. An easy-to-access platform that helps you systematize car renting operations and issue unified rental contracts to preserve all relevant parties' rights. All procedures are developed within a regulatory framework that enables the Transport General Authority and relevant authorities to implement their regulation through a standardized and advanced system.

Target Audience

All car
rental brokers

All car rental
companies

Features

Check the car's validity
(vehicle registration - periodic
inspection - insurance)

Minimize unsystematic
procedures in Saudi
Arabia's car rental market

Provide a one-stop platform
for all car rental procedures

Preserve the rights of
all parties

Integration with Tamm
system for internal and
external car authorization

Additional Features

- ◆ Ensure high-quality services
- ◆ Issue contracts through licensed establishments, and with valid cars
- ◆ Linking you to relevant government entities
- ◆ Issue a unified electronic rental contract that details all requirements and legal clauses
- ◆ Verify any establishment's validity (license validity)
- ◆ Enhance competitiveness among service providers via service rating centers
- ◆ Verify the renter validity (license)
- ◆ Rental activities vary between personal car rental and electronic car rental by establishments, without the need for a rental office

Service gateway

Start organizing the vehicle rental process at your facility
